**Subject: Reference Certificate Following the EuCertPlast and RecyClass Certification
"Sumilon Eco Pet"**

Silk Road Certification Sp. z o. o. supported us in the preparation and successfully guided us through the **EuCertPlast** and **RecyClass Recycling systems certification**.

Both certifications were performed by the **accredited EuCertPlast** and **RecyClass** auditor **Paweł Baryluk** in Q2 2023.

Contact with the **Silk Road Certification Sp. z o. o.** team was transparent from offering to obtaining certificates, we had the opportunity to constantly monitor the execution of the order. The certification stages and the on-site audit were carried out according to the planned schedule. Requests for documents and submitted forms were legible and transparent in layout, which enabled easy transfer of information on documents and mass balances to the auditor. The team of employees of **Silk Road Certification Sp. z o. o.** and the **accredited auditor EuCertPlast Paweł Baryluk** demonstrated great substantive knowledge and professionalism. We completed the entire process successfully, obtaining the certificate within the agreed deadline, necessary for the further development of our client's network.
